NPIC/TSSG/RED/ATB-078/70
1 April 1970

MEMORANDUM FOR: Chief, Applied Photo-Science Division, TSSG

THROUGH : Chief, Advanced Technology Branch, RED/TSSG
Chief, Research & Engineering Division, TSSG

SUBJECT : Review of Proposal

1. As part of the color standards program within RED the frequency response and the microimage characteristics of color film imagery are under investigation. Much of the data necessary can only come from a thoroughly calibrated microdensitometer.

2. Recognizing the problem [] proposes (see attachment) to calibrate the APSD mann microdensitometer. Having achieved this, work on the transfer function and noise characteristics can be quantitatively pursued. 25X1

3. Since Task I of the proposal would involve APSD equipment and to some extent personnel, your concurrence is requested. Further, any comments on any aspect of the proposal would be welcome.

4. In order to meet the procurement administration requirements, your response is requested by 6 April 1970.
